

Coupling bodies

New

NS1 series nominal diameter 1.2 mm, glass-filled polypropylene

The NS1 series is the smallest of the new non-spill coupling ranges from CPC. The innovative valve mechanism allows for drip-free disconnection. NS1 coupling bodies and plugs are made

from glass-filled polypropylene and feature EPDM O-rings and stainless steel springs. The release latch is made from PEEK.

In-line
1/4 - 28 female thread

Tube size inch	metric	valved
1/8" OD*	3.2 mm	NS1D19042812

*or smaller with 1/4 - 28 nut and 1/4 - 28 inserts. See page 220, PMC12 series.
